Child Development and Trauma: Considerations for Educators
A No-Cost Webinar for All School Staff

LEARN TO RESPOND TO TRAUMA TO DE-ESCALATE CONFLICT AND
 BUILD STRONG & SUPPORTIVE SCHOOL & CLASSROOM ENVIRONMENTS

- Increase knowledge about child and adolescent development, particularly thinking, emotions and behavior
- Define “trauma” and understand its impact on the developing brain
- Recognize and identify trauma-related behaviors in the classroom
- Learn about a school district’s Wellness Center model and how staff were engaged in and leading trauma-informed practices in their schools

Presented by
**Alicia Rozum, MSW, PPSC, Project Director Mental Health,
 California School-Based Health Alliance**

Alicia is a school social worker who served for over a decade in the San Francisco Unified School District’s Wellness Initiative. As the Project Director, Mental Health at the California School-Based Health Alliance, Alicia supports schools around the state in providing high quality mental health services and programs, including direct services; therapeutic groups; alternative to suspension programs; coordination of services teams; and staff wellness activities.

The California Mental Health Services Authority (CaIMHSA) is an organization of county governments working to improve mental health outcomes for individuals, families and communities. Prevention and Early Intervention programs implemented by CaIMHSA are funded by counties through the voter-approved Mental Health Services Act (Prop 63). Prop. 63 provides the funding and framework needed to expand mental health services to previously underserved populations and all of California’s diverse communities.
