

Working with Childhood Trauma

May 22, 2017 | 9am - 4pm

Echo brings you a one-day training on childhood trauma for those professionals working with children and families who want a solid grounding in this cutting-edge subject.

Did you know that your grandparents' experiences can affect the way you respond to trauma today? That toxic stress makes us more sensitive to things like sound? Or that it affects learning and memory? Register today for this fascinating review of all that current science is telling us about the number one health issue of our time.

This training will cover:

- The effect of trauma on relationships, the body and the brain
- Survival responses
- Trauma-informed care
- Adverse Childhood Experiences Study
- Emotional regulation
- Building resilience
- Intergenerational trauma – the legacy in our bodies
- Historical and social trauma
