

Moving the Needle

Resolving Poverty & Trauma

September 18 - 19, 2017
WSU Metro Complex
Wichita, Kansas
movetheneedle.essdack.org

What does it look like:

- when **every child knows** they are important?
- when **every student is successful** in school and after?
- when community & families come alongside to help **every student win**?

The **Moving the Needle conference** is for anyone looking for effective strategies & tools designed to assist students and their families experiencing poverty & trauma.

You'll learn what works and what doesn't. You'll hear from other educators addressing poverty in their buildings. You'll talk with students and families. You'll make connections with organizations assisting those in poverty. And **you'll listen to success stories.**

Jim Sporleder will share his experience creating Trauma-Informed schools.

Cost:

- \$150 per person
- Discounts for multiple registrations available
