In *Cracked Up* we witness the impact adverse childhood experiences can have across a lifetime through the incredible story of actor, comedian, master impressionist and *Saturday Night Live* veteran, Darrell Hammond. Behind the scenes Darrell suffered from debilitating flashbacks, self injury, addiction and misdiagnosis, until the right doctor isolated the key to unlocking the memories his brain kept locked away for over 50 years. *Cracked Up* creates an inspiring balance between comedy and tragedy helping us understand the effects of childhood trauma in a new light, breaking down barriers of stigma and replacing shame with compassion and hope.
