

# Grief Sensitivity Virtual Learning Institute

Join us for a two-part virtual learning series to support the mental health and the school mental health workforce in developing and enhancing grief sensitive practices to support the field now and always.

We invite you to join us for two, 2-day virtual learning institutes with leading grief experts across the country. The series is geared towards providing front-line workers with tools and strategies that can be used when addressing the needs of individuals experiencing grief and loss during COVID-19 and beyond.
