REQUEST FOR PROPOSALS

Technical Assistance Consultant: Strengthening Capacity in Overdose, Suicide, and Adverse Childhood Experiences Prevention

Applications must be submitted electronically by **11:59 pm Eastern Standard Time on Monday, February 15, 2021**

Overview

Purpose

The National Association of County and City Health Officials (NACCHO) is seeking consultants to provide technical assistance (TA) to selected communities participating in the pilot process for the Overdose, Suicide Prevention, and Adverse Childhood Experiences Capacity Assessment Tool (O-SPACECAT). NACCHO is supporting the Association for State and Territorial Health Officials (ASTHO) on the development of this new tool, with funding from the Centers for Disease Control and Prevention (CDC).

In both the immediate and long-term, the COVID-19 pandemic is poised to increase rates of overdose, suicide, and Adverse Childhood Experiences (ACEs), with low-income, already marginalized groups, and individuals with pre-existing behavioral health conditions especially at increased risk. O-SPACECAT will assess capacity in health departments across these three domains via a single tool. This tool may help state and territorial health agencies and local health departments (LHDs) better understand the impact of COVID-19 on their capacity to address shared risk and protective factors for social and behavioral health outcomes.

NACCHO will be piloting O-SPACECAT with four LHDs to assess the usability of this tool, gathering feedback on barriers or challenges experienced, and recommendations for improvement. After completion of the pilot test, NACCHO will offer additional support to those participating LHDs, including the provision of TA by the consultant(s).

Funding for this Request for Proposal (RFP) is supported by the CDC cooperative agreement NU38OT000306-02-01 entitled Strengthening Public Health Systems and Services through National Partnerships to Improve and Protect the Nation's Health.

Background

NACCHO is a membership association representing the nearly 3,000 LHDs across the United States. NACCHO's vision is health, equity, and security for all people in their communities through public health policies and services. NACCHO's mission is to improve the health of communities by strengthening and advocating for LHDs. Since its inception, NACCHO has sought to improve the public's health while adhering to a set of core values: equity, excellence, participation, respect, integrity, leadership, science & innovation. For more information on NACCHO, please visit www.naccho.org.

Eligibility and Contract Terms

Through this RFP, NACCHO is seeking consultants with proven experience in local public health as well as expertise in prevention of overdose, suicide, and ACEs and virtual delivery of TA to strengthen LHD capacity.

The period of performance shall begin upon execution of the contract (mid-March) and run through June 15, 2021. All deliverables must be completed by the end of the project period.

NACCHO will award up to a total of \$40,000 to TA consultant(s) to support LHDs participating in the pilot process. This will be a fixed-price, deliverables-based consultant contract. The consultant may work with other consultants or firms to complete the work. However, NACCHO will only contract with and provide funds to one consultant.

Agreement with NACCHO standard contract terms and conditions is a requirement (Appendix A). No modifications to the terms or contract language will be made. Applicants that cannot agree to NACCHO's contract language should not apply for this opportunity.

Scope of Work

Through this project, NACCHO will provide TA to the four selected LHDs participating in the O-SPACECAT pilot process.

While the applicant should propose their own approach to the delivery of this TA, at a minimum, the consultant will:

- 1. Identify the needs and priorities for TA (up to 4 sites)**
 - a. Review of the O-SPACECAT results for each participating health department and conduct a consultation call led by the selected consultant for each participating health department.
 - b. Develop key recommendations for each participating LHD based on the results of the O-SPACECAT and identified priority areas of the LHD, including suggestions for short- and intermediate- next steps to strengthen capacity.
- 2. Provide one-on-one TA based on the opportunities and areas of unmet need identified through O-SPACECAT (up to 4 sites)**
 - a. Develop a product for each participating LHD that highlights the strengths and areas of improvement related to their programs and services for ACEs, suicide, and overdose prevention. This product should be tailored or formatted in such a way that it would be appropriate to be used to gain leadership buy-in and/or apply for funding opportunities.
 - b. Provide appropriate tools and resources to each site to support future implementation of key recommendations and priority areas.
- 3. Hold virtual workshop**

- a. Conduct a virtual workshop for participating LHDs and their team members to help strengthen capacity and promote peer-to-peer learning. The specific focus of the workshop may be tailored to cross-cutting needs identified through the participants' O-SPACECAT results.
