

SPARE THE CHILD

Spare the Child is the first documentary to uncover the lifelong impact that spanking has on the human body, heart, and psyche. Through intimate interviews and compelling animation, this documentary explores the childhoods and subsequent adulthoods of three survivors of childhood corporal punishment. Our goal is to use this documentary to help to destigmatize conversations about spanking as a form of abuse, while uplifting resilience and each individual's innate ability to heal.

While the film cannot be shared online or publicly yet, we want to make sure that experts, community members, and those at the forefront of child advocacy movements have an opportunity to screen *Spare the Child*.

There will be a panel discussion with the producers and on-screen collaborators after the 30-minute film, so the screening event will take place from 3 PM to 4:30 PM on Wednesday July 21st !
