

Trauma Informed Care

TRULY TRANSFORMATIONAL

Since 2019, TACHC has been collaborating with health centers to implement the Trauma Informed Care (TIC) Program, a prevention framework aimed at sustainable change for patients, staff, and communities.

Our **evidence-based curriculum** is a **value-focused strategy** with data demonstrating statistical shifts in staff knowledge, workforce retention, and patient health outcomes.

EDUCATION

Inquiry-based model fosters empowerment and deep knowledge gain by learners.

IMPLEMENTATION

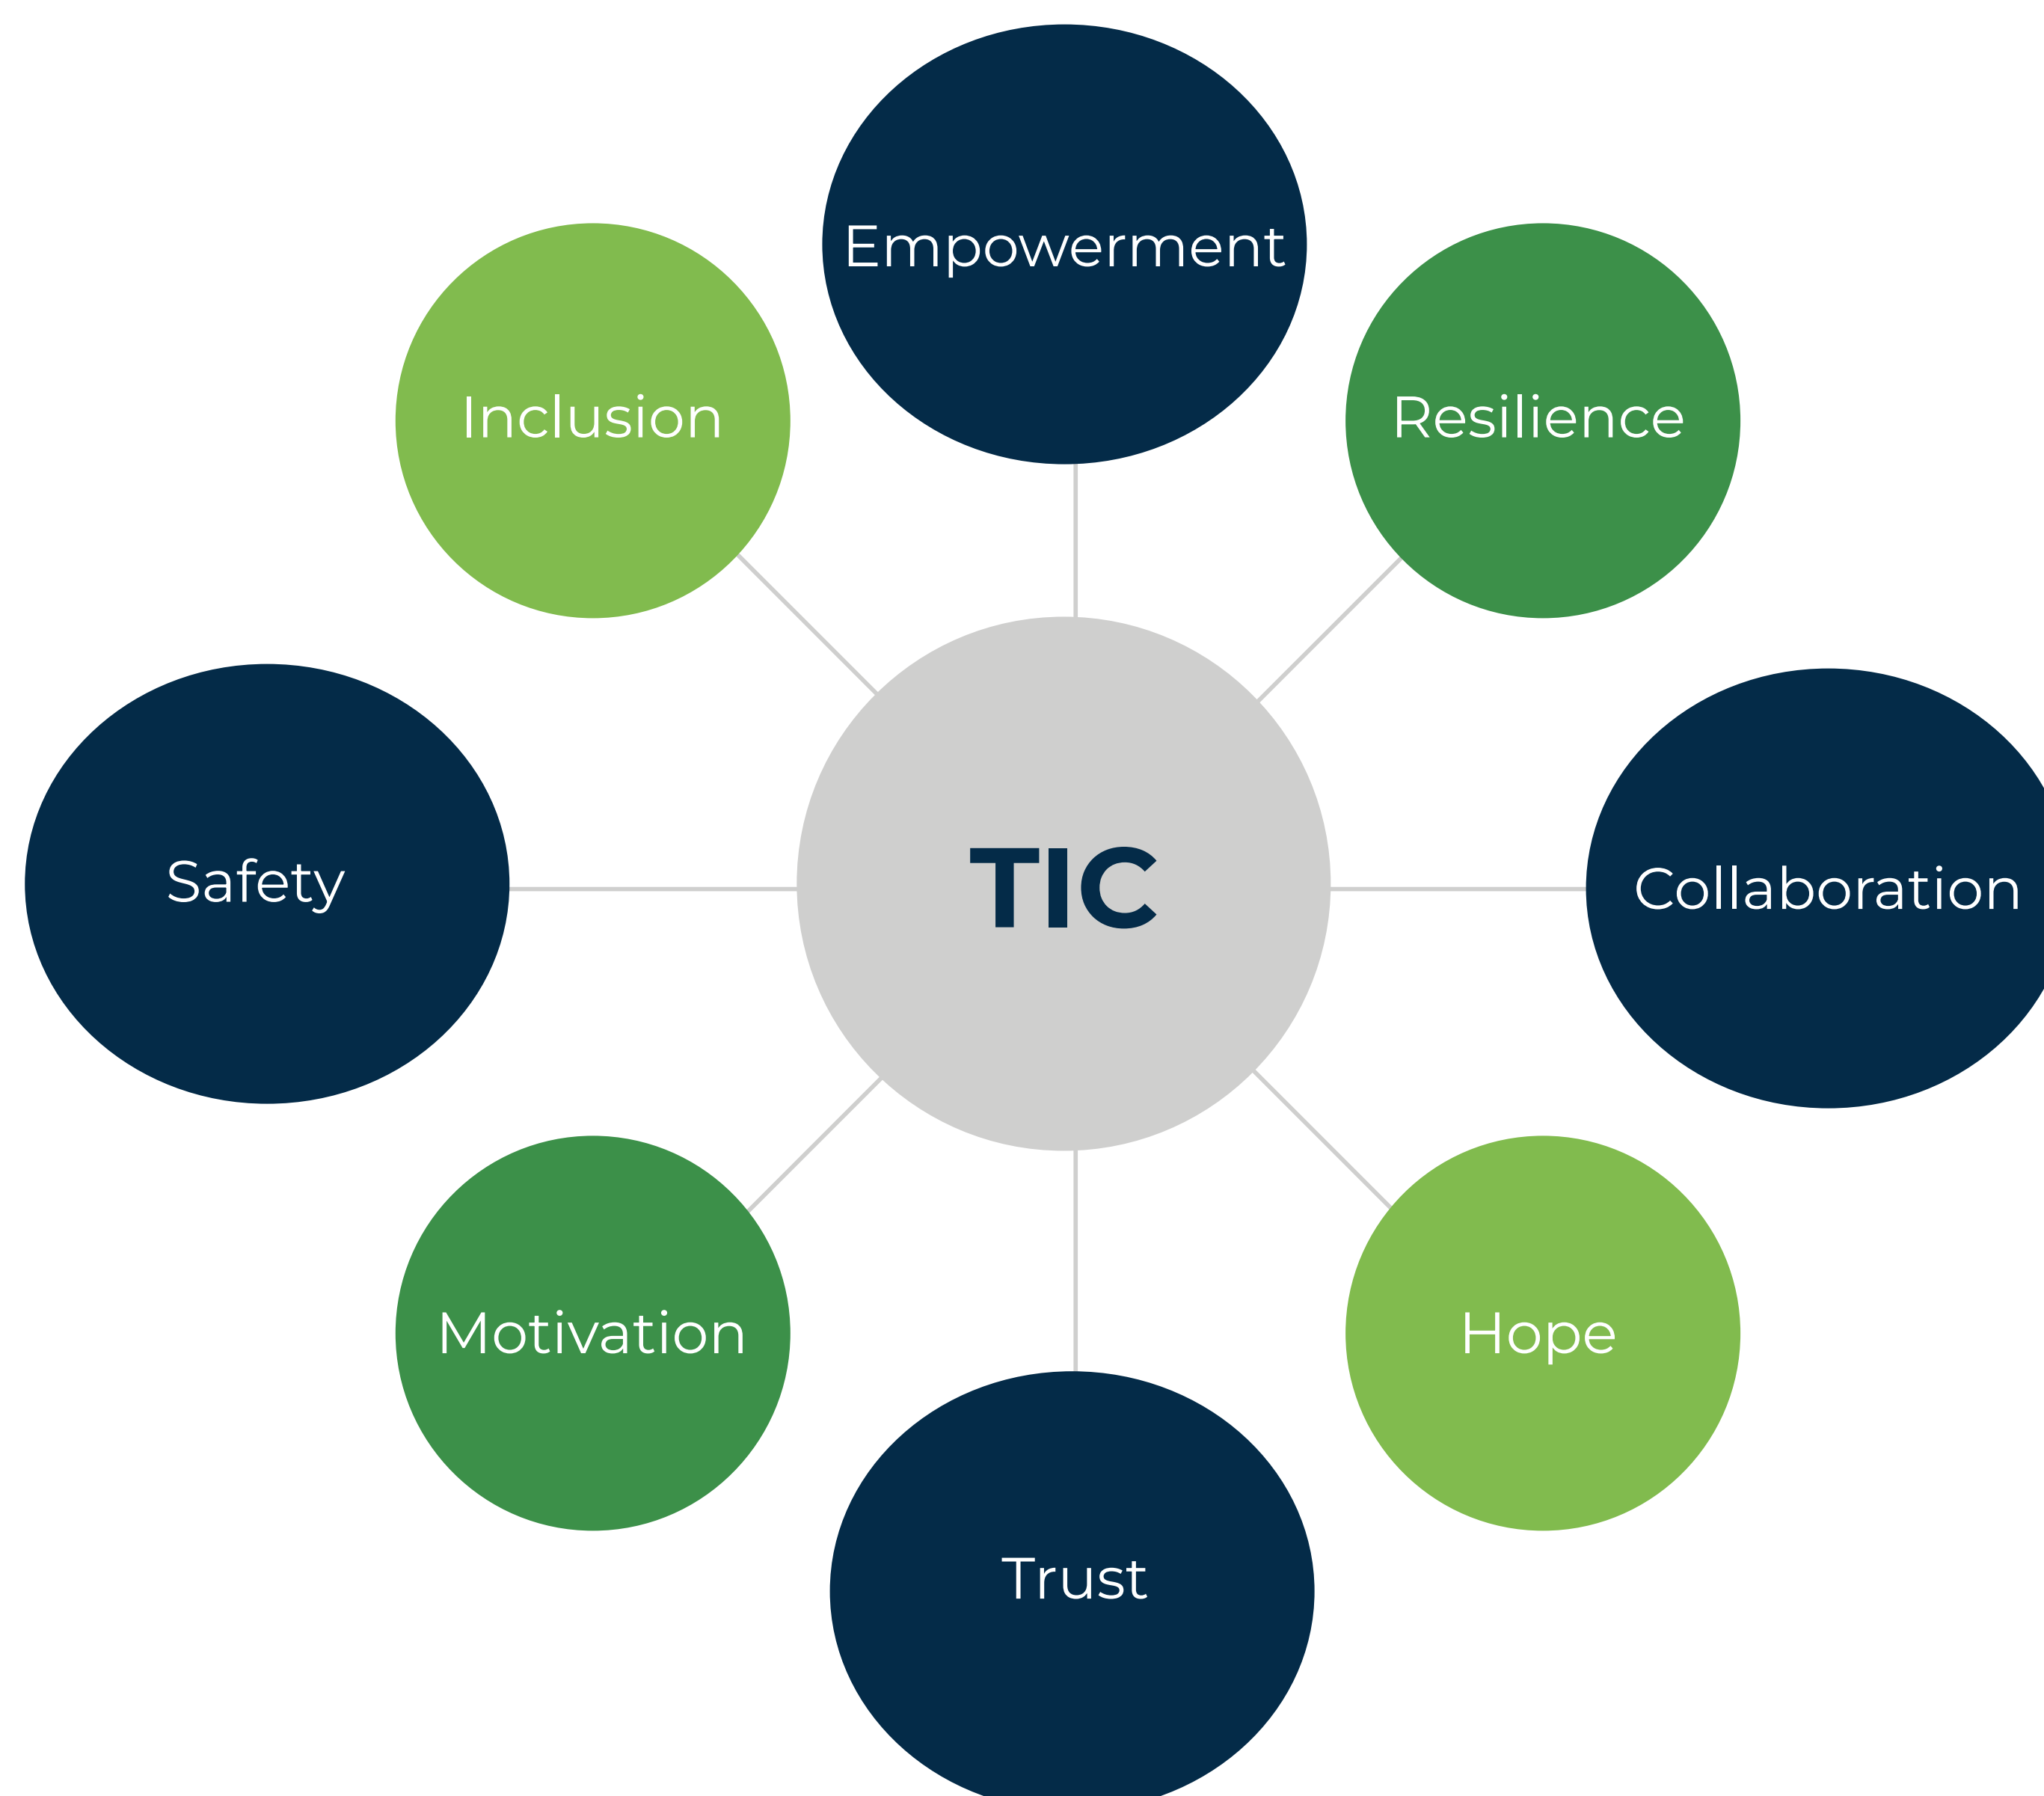

Coaching Calls, peer support, and ongoing assessment propel tailored plans.

TRANSFORMATION

Ongoing support and leveled-trainings empower health centers to grow.

TIC can bolster Texas Health Centers as a place of:

For more information about the program and how your health center can participate, please contact:
