## PURPOSE AND USE OF THE COALITION E-GUIDE

The California Child Wellbeing Coalition e-Guide (e-Guide) is a digital resource intended to support state and local public health programs, child-serving systems, non-profits, and philanthropic organizations that are interested in collaborating with organized groups at the local-level who are working to achieve child wellbeing through policy, systems, and environmental (PSE) change. A well-functioning coalition can be a powerful way to effectively create community-wide PSE health change behaviors<sup>1</sup>, such as working to reduce and prevent child maltreatment and Adverse Childhood Experiences (ACEs).

This e-Guide was developed by the Essentials for Childhood (EfC) Initiative's Policy Subcommittee through a review of local-level community coalitions, commissions, and committees across California that broadly seek to improve child wellbeing to create meaningful PSE change. To learn more, engage, or participate, reach out to the specific body of interest directly.

The e-Guide is intended to be a living document and does not provide an exhaustive list of all coalitions in California; if you have any questions, concerns, or suggested updates, please contact the EfC Initiative Project Team at: [childadversityprevention@cdph.ca.gov](mailto:childadversityprevention@cdph.ca.gov).

## BACKGROUND

This e-Guide was developed by the [EfC Initiative](#), a project funded by the Centers for Disease Control and Prevention (CDC) and led in partnership by the [California Department of Public Health, Injury and Violence Prevention Branch](#) (CDPH/IVPB), and the [California Department of Social Services, Office of Child Abuse Prevention](#) (CDSS/OCAP). The EfC Initiative seeks to address ACEs and child maltreatment as public health issues; aims to raise awareness and commitment to promote safe, stable, nurturing relationships, and environments (SSNR&E); creates the context for healthy children and families through social norms change, programs, and policies; and utilizes data to inform actions.
