

HEALTHY SPACES: PROMOTING HEALTHY & RESILIENT COMMUNITIES

DECEMBER 2019 WEBINARS

The New Jersey Chapter, American Academy of Pediatrics (NJAAP) believes that all children deserve to feel safe and secure in their home, at school, and while at play. The *Healthy Spaces* program aims to address adverse childhood experiences (ACEs) through partnerships with pediatric/family health care teams, schools and communities.

Preventing Child Abuse and Neglect (PCAN)

Date & Time: Tuesday, December 10, 2019 from 12pm-1pm

Registration: https://zoom.us/webinar/register/WN_bgNRgTgUSYWKTntcKG9KDA

Overview: Presented by Steven Kairys, MD, MPH, FAAP, this **Prevention of Child Abuse and Neglect (PCAN)** webinar focuses on primary prevention by addressing four global triggers within the context of the Pediatric Medical Home (PMH): crying, toileting, discipline and Post-Partum Depression. CME and CNE credits are available to participants.

Learning Objectives:

- Embrace the medical home as a system change concept.
- Understand the influence adversity plays in shaping a child's lifelong behavioral and physical wellbeing.
- Utilize appropriate anticipatory guidance and prevention education at well-child visits
- Align families with supportive community resources
- Create an effective partnership with the Division of Child Protection and Permanency, Child Behavioral Health Services and Prevention, and Community Resources.

ACEs Screening in Pediatrics: Perspectives from the Field

Date & Time: Wednesday, December 11, 2019 from 12pm-1pm

Registration: https://zoom.us/webinar/register/WN_-o6VSjMYTUCaozLvsEhBlw

Overview: Presented by Leena B. Singh, DrPH, MPH, and Karissa Lockett, RN, MSW, this webinar breaks down ACEs science and contextualizes the relationship between toxic stress and adverse health outcomes. Participants will gain an understanding of what pediatric health care providers can do to prevent and address ACEs with their patients on a micro-level, and will also learn from examples of early-adopters what can be done to support children and families facing adversity on a macro-level.

Learning Objectives:

- Discuss ACEs science and the relationship between toxic stress and adverse health outcomes
- Describe the rationale for ACEs screening, strategies to overcome barriers to implementation & practice change measures
- Review case study learnings and best practices from nationwide ACEs screening pilots, including NJAAP
- Understand the origins and plan for CA legislation around ACEs screening and how participants can promote this in their state
