

Dr. Claudia M. Gold: An ACE-Informed Pediatrician Live Chat Event on July 11th

“Giving advice, as well as parent training and behavior management, sometimes collectively referred to as psychoeducation, are left-brain, thinking activities.

To change the way we behave, we need to change the way we feel.”

Dr. Claudia M. Gold has practiced general and behavioral pediatrics for 25 years and specializes in early childhood mental health. She is on the faculty of the University of Massachusetts, Boston Infant-Parent Mental Health program, William James College, and the [Austen Riggs Center](#) where she is a Human Development consultant. Dr. Gold has authored the following titles: [The Developmental Science of Early Childhood](#), [The Silenced Child](#), and [Keeping Your Child in Mind](#).

CLAUDIA M. GOLD, MD

We are thrilled to have her as the featured guest for the July, Parenting with ACEs chat. Please join us. We'll chat about her work, the above quote, and ask:

- What is an ACE-informed pediatrician?
- How do we support families and pediatricians addressing parenting with ACEs?
- What ways can ACE assessments be done in a pediatric practice?
- What are practical ways to promote healing and resilience after ACEs? .
