# Cultivating a Culture of Equity

**#1 Arizona's Youth Are In Crises** – We will discuss challenges that keep young people from surviving and thriving in school and life including Adverse Childhood Experiences, Domestic, Relationship and Sexual Violence and the subsequent negative effects. We will examine root causes, current data, and participants will share experiences working with youth.

**#2 Trauma Informed Primary Prevention (TIPP)** - We will discuss why and how to address and prevent the root causes of harms in childhood before they begin. We will build equity to end oppression with trauma informed strategies across the social ecology. We will highlight the Social Determinants of Health.

**#3 Equity in Schools & the Workplace** – We will discuss and learn from each other how to build and maintain safety, equity, and respect as norms in schools, the workplace, and the community. We will review current laws and school policies including what to do if you or someone you know has a problem.

**#4 Call Me Trauma Informed** - Putting it together. Participants will discuss how to identify and respond to past and current trauma at school, in the workplace and in the community. We will examine the impact of historical trauma and how together we can continue the healing and cultivate equitable environments . We will provide tools, resources and opportunities to remain connected.

There will be an evaluation component. Questions: Email [Jennifer@PeerSolutions.org](mailto:Jennifer@PeerSolutions.org). You will receive TIPP Certification and .65 CEUs. Certificates will be e-mailed after training is completed.
