

Benchmarks' Partnering for Excellence

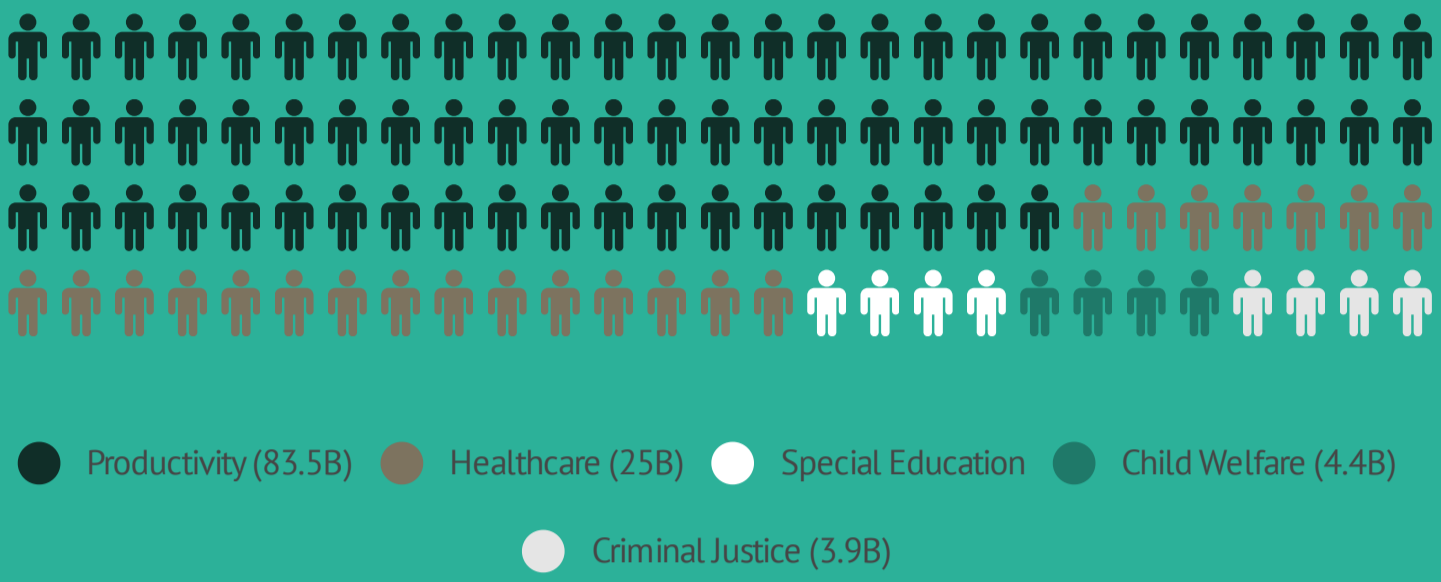

Trauma & Child Welfare

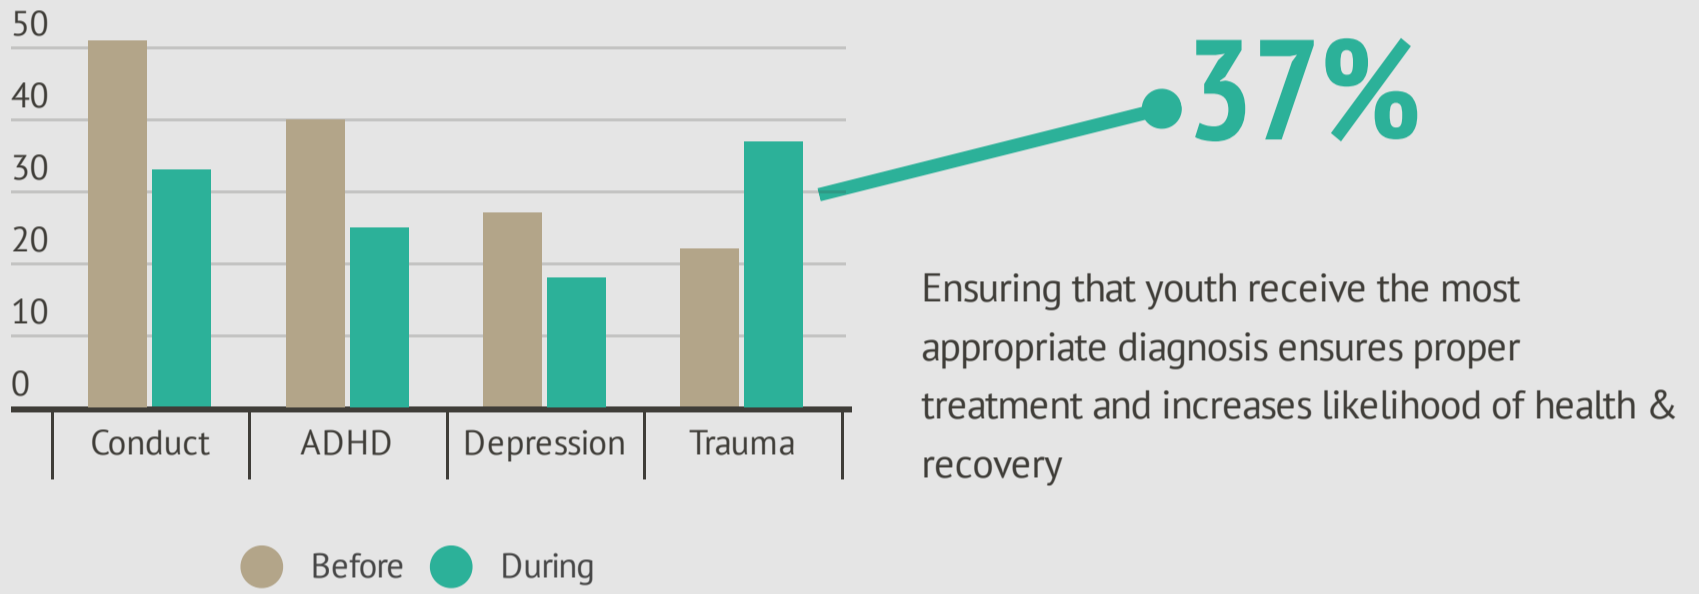

Missed opportunity

While 90% of child welfare involved youth experience trauma, only 15% may receive mental health services to overcome that trauma

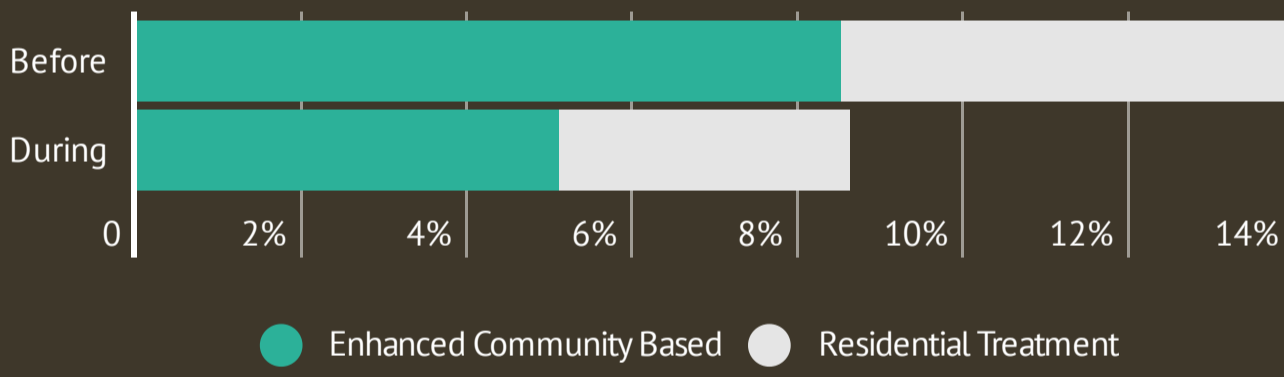

Lifetime costs of trauma (\$124 bil)

Right diagnosis, right treatment

Specialized Mental Health Service Delivery

Cost savings indicative of health

In-Home Savings

Foster Care

Benchmarks' Partnering for Excellence redesigns the local child welfare/behavioral health system, changing the way DSSs, MCOs, local providers, and the wider community understand trauma and the need for accessible, appropriate mental health services for children, youth and families who have experienced potentially traumatic events. PFE aims to lead communities to an understanding of the importance of trauma-informed and trauma-responsive communities, to create a lasting change in the identification and treatment of trauma within the community.
