Votes for these offices and measures directly impact you and your family. Do not give up your voice in shaping your future.

Voting + COVID-19

Our elections will not stop during the pandemic. COVID-19 also means high-risk individuals should stay home at all costs. If you are voting in-person, protect your health and the health of other voters and election workers by taking the following safety steps:

- ✓ Wear a face covering.
- ✓ Practice physical distancing.
- ✓ Wash hands before and after entering the voting location.
- ✓ Use hand sanitizer after touching doors or voting equipment.
- ✓ Bring a pen to avoid touching high-contact surfaces.

And don't forget, you can always skip the polling place and mail in your ballot instead.
