

Free Training...

Everyone Welcome!

**UNDERSTANDING AND WORKING WITH
CHILDREN WITH NEUROLOGICAL CHALLENGES**

**Wednesday, October 25th, 2017
6-9 pm**

Presented by **Lorraine E. Fox, Ph.D.**

During this workshop we will discuss:

- How the brain works, and how the brain is affected by various forms of abuse and neglect
- The effects on the brain of pre-natal exposure to drugs and/or alcohol
- The relationship of pre-natal exposure and ADHD
- ADHD: What is it? What are the three affected areas? What are the behavioral symptoms? ADHD or PTSD?
- Trauma: What is it? How does trauma produce changes in the brain? What are the behavioral symptoms of trauma?
- How does our understanding of neurological challenges inform our responses to behavior?
-

**LOCATION: The El Dorado Center, 6699 Campus Drive, Placerville
The Community Room, Building C, Room 102**

Bring \$2 for parking! Refreshments provided.

Please RSVP to ensure a seat:(but walk- ins welcome):
