

TRAUMA INFORMED CARE TASK FORCE OF GLA

The Trauma Informed Care Task Force of Greater Los Angeles (TIC Task Force) is a grassroots task force committed to promoting comprehensive, trauma informed approaches that mitigate the effects of trauma on families, youth, individuals, and communities.

Our vision is to create a culture of responsive, safe, and collaborative systems that foster community healing.

Our approach is to connect a community of advocates, leaders, agencies, and Los Angeles residents through community-centered resources, education, advocacy, and partnerships grounded in trauma informed principles.

"What is Community Trauma?"
TIC Task Force Community Roundtable, 11/10/15
