

When germs are spreading around, there's a few things we can do to TAKE THEM DOWN!!

1. Wash, wash
**WASH YOUR
HANDS**

3. Avoid touching
your FACE

2. Sneeze / cough
Into a tissue

There's a new virus in town: Coronavirus.

But, there are steps you and your family can take to stay safe and healthy.

**If you or a family member has a fever or is experiencing
runny nose, coughing, shortness of breath, headaches or sore throat...**

CALL YOUR DOCTOR!
