For a Virtual Conversation

CONNECTING COMMUNITIES
One Book at a Time

With best-selling author
BRUCE PERRY

Ingrid Cockhren, CEO of PACEs Connection, Mathew Portell, Director of Communities, and Dr. Perry will engage in a conversation concerning historical trauma and his best selling book *What Happened to You?*, which he co-authored with Oprah Winfrey.

JUNE 28, 2022 | 1:30–3:00 PM (ET)

Information about how you and your community can be involved in our new **Connecting Communities One Book at a Time** book study will also be shared during this event. **Connecting Communities One Book at a Time** has the potential to bring your community together around books that help us have critical conversations concerning trauma, inequity, resiliency, and positive childhood experiences.

Please share, and be sure to invite your community to join us as we discuss:

- How asking “What Happened to You?” is THE QUESTION that can lead to understanding, healing, connection, and community.
- How toxic childhood stress can damage the structure and function of developing brains.
- How protective factors can help families and communities be strong.
- What we, in community, can do to address racism, poverty, and inequity.
- How having an understanding of historical trauma, including genocide, imprisonment, enslavement, and exploitation, can help build healthier, more compassionate communities.
- How sharing *What Happened to You?* with members of your community can inspire a desire to work together to create a more equitable society.
