

TRAUMA-INFORMED SCHOOLS TRAINING

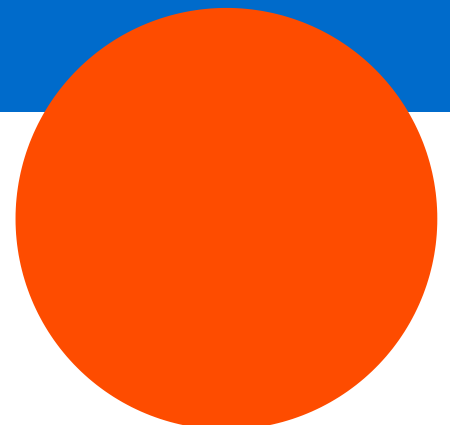

Thursday, August 18 from 8am-4pm

Coastal Coalition for Substance Awareness & Prevention (CCSAP) is proud to offer an engaging day of trauma-informed training to schools **free of charge!**

This in-depth training, led by experts from NC Resilience & Learning Project out of Public School Forum of North Carolina, will provide educators, administrators, and staff with an overview of the research behind trauma and trauma-informed schools, and share resilience-building strategies for educators and whole schools to consider. This training will include a mix of didactic content with slides, videos, small and large group discussion, and other reflection activities to allow participants to apply learning to their own school experiences. The Project works in partnership with schools and districts to design and implement whole-school and district-wide strategies to improve academic performance and social-emotional well-being of students. Attendees will receive a certificate of attendance and contact hours.
