

## ACEs Aware: Supporting and Building Resilience in Children in the Office and School

Join a group of experts in this **two-part** conference to:

- Deepen your understanding of short and long-term physical and psychological effects of Adverse Childhood Experiences (ACEs)
- Enhance your skills in identifying children with ACEs
- Learn how to approach overall care for children with increased clinical risk for toxic stress.

*CME credit is available.*

Register in advance for each webinar:

**Part 1: 10/25 or 10/26**
