

## Supporting Communities to Accelerate ACEs Science to Solve Our Most Intractable Problems

### **The Hub of the ACEs Movement.**

ACEs Connection, an ever-growing social network of over 27,000 members, **connects** those who are implementing trauma-informed and resilience-building practices based on ACEs science. Members share their best practices, while inspiring each other to grow the ACEs movement.

**ACEs = Adverse Childhood Experiences**

### **Information Central for the ACEs Movement.**

ACEs Connection **informs** its members. We send out a *Daily Digest* and *Weekly Roundup* of the latest news, research and reports. The Resources Center has ACE surveys (original and expanded), resilience surveys, ACEs science presentations to download, and much more. In *Ask the Community*, members help each other find what they're looking for.

### **Providing Support for Community ACEs Initiatives.**

ACEs Connection **supports local ACEs initiatives** in neighborhoods, cities, counties, states and nations. We provide initiatives with a free community site on ACEs Connection, guidelines on how to launch and grow local ACEs initiatives, and powerful online tools that help local initiatives measure progress. We also have interest-based communities, such as ACEs in Education, ACEs and

*Pediatrics, and Parenting with ACEs. Our Community Managers site helps managers of nearly 200 geographic or interest-based online communities connect with each other to share ideas about how to best leverage their community's ideas, initiatives, successes, challenges, and ACEs Connection social network to accelerate the implementation of ACEs science.*
