

San Diego Trauma-Informed Guide Team Learning Exchange September 6, 2019

Welcome!

ABOUT THE LEARNING EXCHANGE: Several SD-TIGT members expressed an interest in expanded opportunities for in depth discussion on trauma-informed practices. In response, the SD-TIGT Learning Exchange was created to provide a positive learning environment for sharing experiences, strengthening knowledge, and identifying applicable approaches to skill building. All Learning Exchange Sessions will demonstrate alignment with the SD-TIGT mission, vision, goals and 5 Key Training Components.

The small group format has been specifically designed to provide you with an opportunity for a deeper experience tailored for the multi-sector representation of our members. We hope that these Learning Exchanges will inspire you to "*promote trauma-informed services*" in the San Diego region at all levels; program, policy, and practice.

Take Care,

Melissa Tran-Chamblin
