Mixtec Cultural Awareness Comments

- This event blew me away. You are doing vital work and our community is so fortunate to have your organization present in our community. I was very ignorant of the experiences of Mixteco peoples before this event, but I am now interested in learning more and finding out what I can learn and do to help create a more inclusive environment.
- Thank you very much. This has been one of the best professional learning experiences I have been to in my 20 years of experience.
