This training fulfills 7 hours of continuing education credits required for Resource Parents

Parenting In OZ! uses the colorful imagery of the Wizard of Oz to help resource parents understand the every-present fears that are at the center of childhood trauma for children in foster care.

This training is not about just providing information, it is about creating understanding. Parenting In OZ! also provides an approach to self-care for caregivers that leaves them energized, optimistic, and better able to “stay in the game” to provide loving, long-term care.
