

# Building a Trauma-Informed Community

presented by the Dauphin County Consortium on Trauma-Informed Communities

## December 7 & 8, 2017

## 3219 Green Street, Harrisburg, PA 17110

DECEMBER 7, 2017 | 6-8:30PM

### **“Resilience” Documentary Viewing and Discussion**

Join us for a viewing of the documentary “Resilience” that explores how medical conditions are linked to childhood experiences. Following the documentary, attendees will: (1) understand toxic stress, its effects, and ways to manage it from a practical viewpoint; (2) identify how Adverse Childhood Experiences (ACEs) impact people’s physical, emotional and mental health for their entire lifetime.; and (3) recognize and improve resilience to have a more successful and contented life.

DECEMBER 8, 2017 | 8AM-4PM

### **Engagement Strategies for Meeting Community Outcomes**

Join us for an in-depth look at how Adverse Childhood Experiences (ACEs) impact various sectors within our community and how local programs are working to respond appropriately. During this session, you will have an opportunity to calculate your ACE score, consider the ACE scores of the people you serve, and identify how they impact all of us. Finally, you’ll identify opportunities to build resiliency in the communities you serve through Trauma-Informed Approaches.

*A continental breakfast and lunch are included.*

**RSVP by December 4, 2017 to**

Contact Kacey Crown at (717) 780-6296
