Growing knowledge and networks for professionals working with families.

Child Abuse and Neglect Prevention Summit

Strategies 2.0 invites you to join us in making history!

January 31 & February 1, 2019
San Diego, CA

The Prevention Cabinet of the County Welfare Directors Association of California, the California Office of Child Abuse Prevention (OCAP), and Strategies 2.0 will co-host a Prevention Summit on January 31 and February 1 in San Diego.

This summit will spur a leap forward in our shared goals toward child abuse prevention and family well-being, by convening cross-sector teams from select counties who are prepared to deepen their collaboration and commit to a shared strategy. By participating in the summit, counties will:

- ▶ develop and strengthen public-private partnership for strengthening families
- ▶ create a county-wide prevention plan (or take an existing plan to the next level)
- ▶ commit to an ongoing collaborative process with clear action steps

You can have a role in securing your county's participation.

In November, all California CWDA members and CAPCs will be invited to apply. Contact your local CAPC and/or Child Welfare leadership to encourage them to participate, and indicate your interest in being part of the team and/or the larger collaborative pre- and post-meetings.
