

Towards a Healing Organization

The Wisdom of Trauma Viewing of Dr. Gabor Maté's film

Advancing a healing-centered organization can best be understood through trauma-informed practices. To better understand the interactions between illness, addiction, and trauma in our society, UC Davis Health is showing the 2021 film *The Wisdom of Trauma* by Dr. Gabor Maté, followed by a facilitated discussion on how to move towards a healing organization. The film highlights Dr. Maté's work as a physician who fosters a clearer understanding of trauma's prevalence, symptoms, consequences, and causes so that we can heal ourselves and others. Attend either in-person or virtually for the viewing of the film and discussion. In-person attendees will enjoy snacks and be entered into a raffle to receive Dr. Maté's latest book, *The Myth of Normal*.

About Dr. Gabor Maté

Dr. Maté is a speaker and best-selling author whose work brings together scientific research and lived experiences to offer an enlightening perspective on healing. He practiced as a physician doing primary and palliative care, before transitioning to working with communities challenged by substance use and mental health disorders. He is an expert on trauma, addiction, and stress, and has devoted his career to the promotion of healing.
