

 **DHCS LEARNING SERIES****Adverse Childhood Experiences (ACEs): A Framework for Understanding and Preventing Chronic Diseases in CA****Tuesday, January 17, 2017****11:00am - 12:30pm**

**Vincent Felitti, MD** served as Co-Principal Investigator on the groundbreaking 1997 Adverse Childhood Experiences (ACEs) study, which linked 10 categories of ACEs to numerous later-life negative health and well-being outcomes among 17,000 Kaiser HMO members.

Dr. Felitti will provide an overview of the original ACE study and its implications for public health and health care professionals and their efforts to prevent and reduce the burden of chronic diseases.

**1500 Capitol Avenue, Auditorium****Register for the Live Presentation**
